SKILLS

- Python
- PySpark
- SQL
- ETL developement
- Databricks
- Data Engineering
- Machine Learning
- Generative AI(Gen AI)
- Git & Version Control
- Azure Data Services
- Apache Spark

CERTIFICATIONS

- Databricks Certified Data Engineer Associate
- Databricks Certified Machine Learning Associate
- Databricks Certified Generative AI Engineer Associate
- Infosys Certified Python Programmer
- Infosys Certified PySpark Developer

SUMMARY

System Engineer with 2+ years of experience in Data Engineering, Python, SQL, Databricks, and Azure. Experienced in building scalable data pipelines and analytics solutions. Certified in Generative AI with knowledge of Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, and AI-powered applications. Passionate about developing enterprise AI solutions and continuously learning emerging AI technologies.

EXPERIENCE

Infosys Ltd. | System Engineer **2024 – Present**

- Developed and optimized scalable ETL data pipelines using Python, SQL, Databricks, and PySpark on Azure, enabling efficient data processing and transformation for analytics and reporting.
- Performed data extraction, transformation, validation, and troubleshooting while collaborating in Agile teams to deliver high-quality, reliable data engineering solutions and production support.

AWARDS & ACHIEVEMENTS

- Certificate of Appreciation from Infosys and Telenet (2025)
- Winner – Inter-College Chess Tournament (2021)
- Awarded 'Mr. Fresher' of the Computer Science & Engineering Department.

LEADERSHIP & EXTRA-CURRICULAR ACTIVITIES

- Served as a Public Relations (PR) Coordinator, managing communication, event promotions, and stakeholder engagement.
- Founder, Sumpoorn Sewa – Managed business operations, customer relations, and growth initiatives.
- Founder, TheMusicalSafar – Led content creation, audience engagement, and digital brand development.

EDUCATION

B.Tech in Computer Science Engineering, Baderia Global Institute of Engineering and Management (RGPV) | CGPA: 8.34 | 2018 - 2022

PROJECT

- ETL Data Pipeline Development – Developed an end-to-end ETL pipeline using Python, SQL, Databricks, and PySpark to extract, transform, and process large datasets into analytics-ready data.
